The Council for Economic Education (CEE) is the leading nonprofit organization in the United States that focuses on the economic and financial education of students from kindergarten through high school, and we have been doing so for nearly 70 years. We do this by educating the educators: providing the curriculum tools, the pedagogical support, and the community of peers that instruct, inspire, and guide. All resources and programs are developed by educators and delivered by CEE's national network of Affiliates—over 240 across the country.

advancing economic and financial literacy  
by serving educators.

# One Network of Affiliated Councils and Centers for Economic Education

We invite you to join with the Council for Economic Education (CEE) and our national network of economic educators, along with the support of concerned individuals, businesses, governments and school districts, to provide training programs and resources for teachers. By building the knowledge and skills of teachers in economics and personal financial literacy, we reach millions of students each year. Want to get involved?
