The National Personal Finance Challenge is a competition that provides high school students with an exciting and motivating opportunity to build, apply, and demonstrate their knowledge of money management.

Through online exams and a personal finance simulation, teams showcase their expertise in earning income, buying goods and services, saving, using credit, investing, as well as protecting and insuring.

Teams of up to four students, with one teacher/coach, can qualify to represent their state at the National Personal Finance Challenge by winning their local competition.
